Harvard Evergreen Nurseries

A WORD TO CUSTOMERS AND FRIENDS

After more than forty years spent in the growing and selling of evergreens I am now retiring from the business and it is with somewhat of a feeling of regret that I make this announcement to all friends and customers. Some of you have done business with me for very many years and I shall certainly esteem your good will and friendship as long as I live. The remaining years that God may grant to me I expect to spend mostly in other activities, as the strenuous life of the nurseryman is getting to be too much for me, and I have no boys to take my place.

The following is a list of all that I have to offer for the spring of 1923. Should you see anything that you need, I shall appreciate your early order. All prices are for trees packed and on cars here, subject to my usual terms as given in former Price Lists.
